移動式X光機 Portable X-Ray Unit

PX-80M

Compact Size, Sharp Radiographs

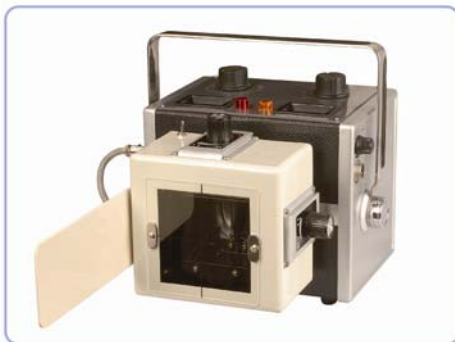

Suitable for Medical Institution, Veterinary, Orthopedics

| PX-80M

- ◆ The PX-80M weight only 15kgs, complete with aluminium
- ◆ The generator complete with adjustable light beam diaphragm for precise beam alignment and prevention of scattered radiation, showing the Center of the x-ray beam.
- ◆ The electronic timer having settings from 0.03-5 sec in 22steps, enable short exposure times to be used.
- ◆ Minimal radiation leakage.

| Specification

Tube Potential	80kVp
Tube Current	10mA
Exposure Time	0.3-5 sec in 22 steps
Total Filtration	2.5mmAlEq
Generator Weight	15kgs
Stand Weight	25kgs

◆ X-Ray generator

◆ Carrying Case

| Dimensions

◆ A-TYPE Stand
